Who helps animals?

Time

20 to 25 minutes

Grades

K to 2

What Children Will Do

Children match five animals to the helpers who care for them, color the helper they like best, and draw an animal they would like to help.

Before You Start

- Print one page per student. The educator page is for you only. Have crayons or colored pencils ready.
- Explain that coral are tiny sea animals that build reefs.

Read Aloud

"Animals have helpers too. Look at each animal. Who takes care of it? Draw a line from the animal to its helper."

How to Run It

1. (3 to 4 min) Name the five animals together: dog, horse, fish, coral and bat.
2. (6 to 10 min) Children draw a line from each animal to its helper. Read the helper names aloud as needed.
3. (5 to 7 min) Children color the helper they would like to be.
4. (5 to 8 min) Children draw an animal they would like to help and finish the sentence, "I would like to be the _____. I would help animals by _____." Write the words for children who are not ready to.

Answer Key

Dog: Dog Groomer. Horse: Horse Trainer. Fish: Aquarium Worker. Coral: Coral Scientist. Bat: Bat Protector.

[Dog Groomer](#) | [Horse Trainer](#) | [Aquarium Facility Technician](#) | [Coral Biologist](#) | [Bat Conservationist](#)

Talk Together

- Which animals do you see at home or at school? Who takes care of them?
- Which helper would you like to be? Why?

Go Further

- Children tell a friend how they would help their animal.
- Grown-ups can open the [Career Profile](#) links above to show a short video of one helper at work.
